"My talented husband designed our watercolor stationery himself," says Regina. "It was so beautiful and unique to us." As for the reception décor, Regina told their planner she wanted a lot of bright colors and let her take it from there. "The overall look, combined with hundreds of candles, created such an awesome atmosphere—romantic and elegant, yet not over-the-top," she says. "It was exactly what we wanted."

Regina wore an ivory fit-and-flare strapless gown with a ruched bodice and frothy tulle skirt. "The whole night was so amazing I didn't even change into my second dress during the reception like I had planned," says Regina. "I literally didn't want to miss a beat!"
